

DAVID J. BURKE-*CURRICULUM VITAE*

Address

David J. Burke, Ph.D.
Scientist
The Holden Arboretum
9500 Sperry Road
Kirtland OH 44094
440-602-3858 (W)
dburke@holdenarb.org

Education - Degrees

Ph.D., 2001
Biology with concentration in Ecology and Evolution; Rutgers University, Newark, NJ
M.S., 1996
Biology; East Stroudsburg University, East Stroudsburg, PA
B.S., 1987
Environmental Science; Rutgers University, New Brunswick, NJ

Education - Assistantships and Fellowships

2005-2006	Department of Environmental and Forest Biology, State University of New York <i>Postdoctoral Associate</i>
2002-2004	Boyce Thompson Institute for Plant Research at Cornell University <i>Postdoctoral Associate</i>
2003	Center for Environmental Bioremediation, University of West Florida <i>Visiting Research Associate</i>
2001-2002	Department of Mechanical Engineering, New Jersey Institute of Technology <i>Postdoctoral Associate</i>
2001	Department of Biological Sciences, Rutgers University <i>Research Assistant</i>
1997-2000	Department of Biological Sciences, Rutgers University <i>Teaching Assistant/Graduate Assistant/Lecturer</i>

Education - Scholarships and Awards

Teaching Assistantship, Department of Biological Sciences, Rutgers University, 1998-2000
(\$48,000 total support)
Polgar Fellowship, Hudson River Foundation, 1999 (\$5000)
Greenfield Botany Fellowship, Rutgers University, 1998 (\$750)

Graduate Assistantship, Department of Biological Sciences, Rutgers University, 1997-1998 (\$24,000 total support)

Professional Experience

- 2012-Present The Holden Arboretum, *Research Chair*
- 2006-Present The Holden Arboretum, *Scientist, Rhizosphere Biologist*
- 1995-1997 Yannaccone Associates, Inc., Chester, New Jersey, *Environmental Investigator*
- 1988-1995 Washington Township Health Department, Long Valley, New Jersey
Environmental Health Specialist
- 1987-1988 Randolph Township Health Department, Randolph, New Jersey
Environmental Health Specialist

Academic Appointments

- 2012-Present Department of Biological Sciences, Kent State University
Adjunct Assistant Professor of Biology
- 2006-Present Department of Biology, Case Western Reserve University
Adjunct Assistant Professor of Biology

Research Interests – I study the interaction between plants and soil microorganisms, especially mutualistic and associative soil organisms that live in the root zone of plants such as mycorrhizal fungi. My work seeks to understand the factors that govern the diversity of soil organisms and their functional roles within natural systems.

Grants Awarded

NSF grant through Ecosystem Science Cluster entitled *LiT-Collaborative Research: What lies beneath: P limitation and soil microbial community composition in hardwood forests*. Amount: **\$318,383** (DEB 0918167). September 1, 2009. **Burke DJ** (PI) and Smemo KA (Co-PI).

Unfunded collaborator on NSF grant to Sharon Strauss (UC-Davis PI) and Jean Burns (CWRU Subcontractor). "To what degree does phylogenetic relatedness between species predict ecological similarity?" **\$549,918** (DEB 1120387).

Presentations - International and National Meetings

Burke DJ, and Carrino-Kyker SR (2016) Location, location, location: Microsite environmental conditions not seasonality affect fungal communities in a temperate hardwood forest. ISME meeting, Montreal, CA, August 22-26.

Carrino-Kyker SR, Coyle KP, Kluber LA and **Burke DJ** (2016) Do seasonal changes affect the soil microbial community response to ecosystem level acidification? ISME meeting, Montreal, CA, August 22-26.

Krynak KL, **Burke DJ**, and Benard MF (2015) Practically non-toxic? The effects of Rodeo herbicide on *Acris blanchardi*. Amphibian Pathogens Annual Meeting, Arizona State University, October 31 - November 1.

Burke DJ, Coyle KP, Kluber LA, and Carrino-Kyker SR (2015) Do seasonal changes in temperature and precipitation alter soil microbial community response to ecosystem level acidification as determined by 454 pyrosequencing. 100th annual meeting of the Ecological Society of America, Baltimore MD, August 9-14.

Krynak KL, **Burke DJ**, and Benard MF (2015) Landscape and water characteristics correlate with immune defense trait differences across Blanchard's Cricket frog (*Acris blanchardi*) populations. 100th annual meeting of the Ecological Society of America, Baltimore MD, August 9-14.

Burns JH, Brandt AJ, Murphy JE, Kaczowka A, and **Burke DJ** (2015) Potential drivers of mutual invasibility in *Rumex* congeners. 100th annual meeting of the Ecological Society of America, Baltimore MD, August 9-14.

Cope CG, **Burke DJ**, Burns JH, Brandt AJ, Murphy JE, Kaczowka A, and (2015) The role of native ungulates and invasive earthworms in shaping plant and soil communities in northeast Ohio. 100th annual meeting of the Ecological Society of America, Baltimore MD, August 9-14.

Brouwer NL, Hale AN, Heckel CD, Spigler RB, **Burke D** and Kalisz S (2015) Experimental evidence links altered species interactions to native plant decline: Demographic consequences & physiological mechanisms. British Ecological Society Annual Symposium, Sheffield, UK, March 24-26.

Krynak KL, **Burke DJ**, and Benard MF (2014) What can an assessment of immune defense traits across a landscape tell us about Cricket frog health? Amphibian Pathogens Annual Meeting, Arizona State University, November 15-16.

- Burke DJ** (2014) Effects of annual and inter-annual environmental variability on soil fungi associated with an old-growth, temperate hardwood forest. 99th annual meeting of the Ecological Society of America, Sacramento CA, August 10-15.
- Burns JH, Anacker BL, Strauss SY, and **Burke DJ** (2014) Closely related plant species have similar soil fungal communities in their rhizosphere. 99th annual meeting of the Ecological Society of America, Sacramento CA, August 10-15.
- Krynak KL, Benard MF, and **Burke DJ** (2014) Are amphibian skin associated communities regulated by the host, the external environment, or both? 99th annual meeting of the Ecological Society of America, Sacramento CA, August 10-15.
- Kyker SR, Kluber LA, Petersen SM, Coyle KP, Hewins CR, DeForest JL, Smemo KA and **Burke DJ** (2014) Experimental pH and P manipulation alters root-associated fungal community structure in temperate hardwood forests. 99th annual meeting of the Ecological Society of America, Sacramento CA, August 10-15.
- Petersen SM, Albro SL, Drewa PB, Watson M, and **Burke DJ** (2014) Much ado about deer? 5-8 years of deer exclusion does not impact the understory plant community in temperate forests of northeastern Ohio. 99th annual meeting of the Ecological Society of America, Sacramento CA, August 10-15.
- Smemo KA, DeForest JL, Petersen SM, **Burke DJ**, Hewins CR, Kluber LA, and Carrino-Kyker SR (2013) Seasonal Belowground Ecosystem and Eco-enzymatic Responses to Soil pH and Phosphorus Availability in Temperate Hardwood Forests. 2013 AGU Fall, San Francisco CA, December 9-13. (Poster)
- DeForest JL, Smemo KA, Weintraub MN, **Burke DJ**, Carrino-Kyker SR, Hewins CR and Kluber LA (2013) Shifts in forest soil enzyme stoichiometry due to season, pH, and phosphorus availability. 98th annual meeting of the Ecological Society of America, Minneapolis Minnesota, August 4-8.
- Petersen SM, Carrino-Kyker SR, DeForest JL, Smemo KA, Hewins CR, Shaw A and **Burke DJ** (2013) Tree responses to experimental pH and phosphorus elevation in acidic temperate hardwood forests. Botanical Society of America Meeting, New Orleans, LA, July 27-August 1.
- Burke DJ**, Carrino-Kyker SR, Kluber LA, Petersen SM, Coyle KP, DeForest JL, Smemo KA and Hewins CR (2013) Effects of soil pH and P availability on root associated fungal communities in a temperate hardwood forest. Botanical Society of America Meeting, New Orleans, LA, July 27- August 1.
- Kyker SR, Kluber LA, Hewins CR, Coyle KP, **Burke DJ** and Smemo KA (2012) Regulation of Arbuscular Mycorrhizal Phosphate Transporter Genes in Acidic Forest Soils. Soil Science Society of America Meeting, Cincinnati OH, October 21-24 (Poster).
- Kyker SR, Kluber LA, **Burke DJ**, DeForest JL and Smemo KA (2012) Experimentally reversing soil acidification in NE hardwood forests: soil microbial and biogeochemical responses. Fourth International Ecosummit, Columbus OH, September 30 – October 5 (Poster).
- DeForest JL, Shaw AN, Kluber LA, **Burke DJ**, Kyker SR, and Smemo KA (2012) Are maples limited by phosphorus in unglaciated forests? 97th annual meeting of the Ecological Society of America, Portland OR, August 5-10.

- Hewins CR and **Burke DJ** (2012) Seasonal variation of fungal communities on roots of *Allium tricoccum* (wild leek) in a mature mixed hardwood forest. 97th annual meeting of the Ecological Society of America, Portland OR, August 5-10. (Poster)

- Chan CR and **Burke DJ** (2007) Invasive garlic mustard (*Alliaria petiolata*) alters soil bacterial communities in a northern hardwood forest soil. Ninety-second annual meeting of the Ecological Society of America, San Jose, California, August 5-10 (Poster).
- Topa MA, **Burke DJ** and Chapin C (2005) Biocontrol of purple loosestrife by the leaf-feeding beetle *Galerucella*: Potential cumulative effects on whole-plant carbon budgets. Ninetieth annual meeting of the Ecological Society of America, Montreal, Quebec, August 7-11 (Poster).
- Burke DJ**, Topa MA and Kretzer AM (2005) Bacterial diversity in soil associated with ectomycorrhizal root tips of loblolly pine: effects of long-term fertilization. Ninetieth annual meeting of the Ecological Society of America, Montreal, Quebec, August 7-11.
- Burke DJ**, Martin KJ, Rygiewicz PT and Topa MA (2004) Ectomycorrhizal diversity in a loblolly pine (*Pinus taeda* L.) genetics plantation: Influence of host origin and

fertilization. Eighty-ninth annual meeting of the Ecological Society of America, Portland, Oregon, August 1-6.

Burke DJ, Martin KJ, Rygielwicz PT and Topa MA (2003) Utilization of TRFLP to characterize mixed ectomycorrhizal fungal communities. Third International Symposium on Dynamics and Physiological Processes of Woody Roots, University of Western Australia, Perth, Australia, September 29-October 3 (Poster).

Burke DJ, Weis JS and Weis P (1999) Excretion of metals by the salt marsh grasses *Spartina alterniflora* and *Phragmites australis*. Fifteenth Biennial International Conference of the Estuarine Research Federation, New Orleans, September 25-30.

Presentations - Regional and Local Meetings

Lance AC, Hausman CE, **Burke DJ**, and Burns JH (2016) Temperate tree response to microbial inoculation during restoration. 8th Annual Cleveland Metroparks Natural Resources Research Meeting, Cleveland OH, December 15.

Burke DJ, and Carrino-Kyker SR (2016). Land use history effects on forest ecological integrity: How do plant and soil fungal communities respond? Kent State University Water and Land Symposium, October 6 (poster).

Burke DJ, Carrino-Kyker SR, and Kalisz S (2016) Deer and invasive plant removal can change soil fungal communities and soil chemistry: evidence from a long-term field experiment. Ohio Invasive Plants Council Research Conference, Columbus OH, February 11. (Poster)

Lance A, Hausman C, **Burke D**, and Burns J (2015) Manipulation of soil microbial communities in the restoration of Acacia Reservation. 7th Annual Cleveland Metroparks Natural Resources Research Meeting, December 11. (Poster)

Krynak KL, **Burke DJ**, and Benard MF (2015) Landscape and water characteristics correlate with immune defense trait differences across Blanchard's Cricket frog (*Acris blanchardi*). Early Career Scientist Symposium, University of Michigan, March 28.

Krynak KL, **Burke DJ**, and Benard MF (2015) What can an assessment of immune defense traits across a landscape tell us about Cricket frog health? Ohio Natural History Conference, Columbus, OH, February 28. (Poster)

Krynak K, Benard MF, and **Burke DJ** (2013) Do small changes in larval habitat pH alter immune defense traits in Bullfrogs (*Rana catesbeiana*)? 21st Nonpoint Source Monitoring Conference and Workshop, American Society of Civil Engineers, Cleveland, OH, October 28-30.

Burke DJ (2013) "Mushroom, trees and microbes: How do our forests respond to decades of acid rain?" Scientist Lecture Series, The Holden Arboretum, January 17.

Krynak K, Benard M, and **Burke D** (2012) Does larval habitat pH influence *Rana catesbeiana* immune defenses post-metamorphosis? Midwest Partners in Amphibian and Reptile Conservation Annual Meeting, Pioneer OH, September 7-9.

Burke DJ (2009) More than just trees: The unseen components of forest ecosystems. Scientist Lecture Series, The Holden Arboretum, December 9.

Presentations - Undergraduate Research Presentations

- Chervenak CF, Carrino-Kyker SR, Hewins CR, and Burke DJ (2016) Root mat fungal communities and extracellular enzyme activities respond to changes in pH and phosphorus addition. 1st Annual SEARCH Symposium, Holden Arboretum, Cleveland OH, August 3.
- Mann M, **Burke DJ**, Burns JH, Valverde OJ, and Medeiros JS (2016) Relating leaf and root morphology to microbial community composition in *Rhododendron*. 1st Annual SEARCH Symposium, Holden Arboretum, Cleveland OH, August 3.
- Parker AL, Hoke A, Carrino-Kyker SR, Krebs SL, and **Burke DJ** (2016) Effect of the soil microbiome on disease resistance in American Beech (*Fagus grandifolia*) and Red Oak (*Quercus rubra*). 1st Annual SEARCH Symposium, Holden Arboretum, Cleveland OH, August 3.
- Rapini AT, Carrino-Kyker SR, and **Burke DJ** (2016) The impact of land-use history on soil fungal communities in a northern hardwood forest. 1st Annual SEARCH Symposium, Holden Arboretum, Cleveland OH, August 3.
- Wagner A, Krynak K, Dennis P, and **Burke D** (2015) Does sex, age, or species drive gut microbial community similarities between captive lorikeets? 7th Annual Cleveland Metroparks Natural Resources Research Meeting, December 11.
- Wagner A, Krynak K, Dennis P, and Burke D (2015) Does sex, age, or species drive gut microbial community similarities between captive lorikeets? Kent State University's

Undergraduate Symposium on Research, Scholarship, and Creative Activity, March 11.
*Second place finish in biology category.

Wagner A, Krynak K, Benard M, and Burke D (2014) How rapidly can Bd (*Batrachochytrium dendrobatidis*) adapt to antimicrobial peptide defenses of American Bullfrogs? Holden Summer Intern Research Presentations, The Holden Arboretum, July 29.

Klenkar MK, and Burke DJ (2014) Effects of mycorrhizal fungi, water reduction, and neighboring plant species on seedling growth performance of *Arisaema triphyllum* and *Maianthemum racemosum*. Holden Summer Intern Research Presentations, The Holden Arboretum, July 29.

Wagner A, Krynak K, Dennis P, and Burke D (2014) Does sex, age, or species drive gut microbial community similarities between captive lorikeets? Presentation to Conservation and Science Department, Cleveland Metroparks Zoo, July 24.

Flanigan A, MacBeth M, Zhao X, **Burke D**, and Burns J (2013) Do closely related plants create similar soil microbial communities in the rhizosphere. Case Western Reserve University, Intersections Undergraduate Presentations, August 2.

Amick J and **Burke D** (2010) Precipitation, pathogens and place: Microbial contaminants in the rooftop rainwater of urban and rural buildings. Case Western Reserve University, Intersections Undergraduate Presentations, April 16.

Zajac A, Carrino-Kyker S, **Burke D**, and Bernard M (2009) Genetic Diversity and Top Down Controls on Zooplankton and Microbial Communities. Summer Program in Undergraduate Education (SPUR), Case Western Reserve University, July 31.

Invited Seminars

The Wilds, Conservation and Restoration Ecology Department (July 2016)

John Carroll University, Department of Biology (October 2014)

Case Western Reserve University, Department of Biology (October 2014)

Cleveland State University, BGES Department (March 2012)

Kent State University, Department of Biological Sciences (September 2011)

Bowling Green State University, Department of Biological Sciences (March 2011)

John Carroll University, Department of Biology (March 2010)

University of Pittsburgh, Department of Biological Sciences (October 2008)

Ohio University, Department of Environmental and Plant Biology (October 2008)

Cleveland State University, BGES Department (April 2008)

East Stroudsburg University, Department of Biology (September 2007)

John Carroll University, Department of Biology (May 2007)

Case Western Reserve University, Department of Biology (January 2006)

Smithsonian Research Institute, Edgewood Maryland (January 2006)

State University of New York, Department of Environmental and Forest Biology (December 2004)

USDA, Appalachian Farming Systems Research Center (October 2004)

University of Vermont, Burlington, College of Agriculture and Life Sciences (November 2003)

University of West Florida, Department of Biological Sciences (February 2003)

Boyce Thompson Institute for Plant Research at Cornell University (August 2002)

Mary Washington College, Department of Biological Sciences (February 2002)

Hofstra University, Department of Biological Sciences (February 2002)

Rutgers University, Department of Biological Sciences (1998, 1999, 2000, 2001)

Teaching Experience - Lecturer

Field Ecology (Fall 2001): Presented four classes on vegetation types encountered in New Jersey and environmental factors influencing vegetation across the state.

Plant Ecology (Spring 1997): Responsible for developing plant ecology course for undergraduate biology majors. Incorporated topics in plant geography, autecology and synecology to examine the relationships between plants and their environment.

Teaching Experience - Teaching Assistantships

Plant Physiology Laboratory (Fall 1999, Fall 2000): Responsible for instruction of plant physiology laboratory for undergraduate biology majors, including assessment and grading of laboratory reports.

General Biology (Spring 1999): Instructor for both laboratory and discussion sections of introductory biology course

Field Ecology (Spring 1998): Aided students in field identification of plant species common to forests, fields, and shorelines of New Jersey

Biology of Seed Plants Laboratory (Fall 1997, Fall 1998): Responsible for supervision and instruction of basic plant biology class for undergraduate biology majors, including coordination of laboratory technicians and junior teaching assistants for preparation of class materials

Teaching Experience - Mentoring

Postgraduate Scholars:

Katherine Krynak (2015-2016) Case Western Reserve University/The Metroparks Zoo

Nicole Pietrasiak (2015) The Holden Arboretum

Sheryl Peterson (2012-2014) Case Western Reserve University/The Holden Arboretum

Sarah Carrino-Kyker (2010-2014) Case Western Reserve University

Laurel Kluber (2010-2012) Case Western Reserve University

Juan Carlos López-Gutiérrez (2007-2009) Case Western Reserve University

Thesis Advisor:

Andrew Lance, Doctoral committee member, (2016-present) Case Western Reserve University

Jennifer Murphy, Doctoral committee member, (2015-present) Case Western Reserve University

Anna Osvaldsson, Doctoral committee member, (2015-present) Case Western Reserve University

Colin Cope, Doctoral committee member, (2013-present) Case Western Reserve University

Nivedita Clark, Doctoral committee member, (2011-present) Kent State University
Jennifer Piechowski, Master's committee member, (2015) Case Western Reserve University
Nasmah Bastaki, Doctoral committee member, (2012-2015) Case Western Reserve University
Katherine Krynak, Doctoral committee member, (2011-2015) Case Western Reserve University
Sheryl Peterson, Doctoral committee member, (2008-2011) Case Western Reserve University
Cory Bickel, Doctoral committee member, (2008-2011) Case Western Reserve University
Sarah Carrino-Kyker, **Doctoral advisor**, (2007-2010) Case Western Reserve University
Sandra Albro, Master's committee member, (2007-2009) Case Western Reserve University
Gunjan Andlay, Master's committee member, (2009-2010) Case Western Reserve University

Undergraduate Students:

Catherine Chervenak (2016) Case Western Reserve University
Anna Parker (2016) University of Rochester
Alicia Rapini (2016) Kent State University
Emily Titus (2015) Michigan State University
Mary Kay Klenkar (2014, 2015) Ohio State University
Alexa Wagner (2014) Kent State University
Alexandra Flanigan (2013) Baldwin Wallace University
Morgan MacBeth (2013) Case Western Reserve University
Xiaoni Zhao (2013) Case Western Reserve University
Amanda Shalkhauser (2013) Baldwin Wallace University
Kaitlin Coyle (2011, 2012) Case Western Reserve University
Rose Egelhoff (2011) Pomona College
Hannah Wilson (2011) Allegheny College
Joseph Amick (2010) Case Western Reserve University
Andrew Zajac (2009) Case Western Reserve University
Diane Moon (2009) Case Western Reserve University
Ryan Miller (2009) Case Western Reserve University
Chairut Vareechon (2008) Case Western Reserve University
Nathaniel Hubert (2004) Boyce Thompson Institute
Ann Danko (2004) Boyce Thompson Institute
Alberto Stolfi (2003) Boyce Thompson Institute
Todd Lester (2003) Boyce Thompson Institute

Professional Activities and Service - Reviewer and Referee

National Science Foundation

Ad hoc reviewer, Integrative Organismal Systems, Directorate for Biological Sciences (2013)
Panelist, Population and Community Ecology Cluster, Division of Environmental Biology (2010)
Ad hoc reviewer, Ecosystem Science Cluster, Division of Environmental Biology (2009, 2010)
Ad hoc reviewer, Population and Community Ecology Cluster, Division of Environmental Biology (2009, 2010)

NASA/DOE/USDA

Panelist, NASA carbon cycle science joint panel. Served on “Belowground carbon processes and soil carbon” theme area (USDA/DOE) (2013)

Army Corps of Engineers

Ad hoc reviewer, Engineer Research and Development Center - *ERDC* (2008-2010, 2013)

Journal Reviewer

I generally review at least one manuscript per month for journals such as: *Applied and Environmental Microbiology*, *Biological Invasions*, *Botany*, *Microbial Ecology*, *New Phytologist*, *Plant Ecology*, *Plant and Soil*, *Science*, and *Soil Biology and Biochemistry*.

University Service – Case Western Reserve University

Search committee member, community ecology (2013)
Search committee member, plant ecology (2010)
Search committee member, plant ecology (2009)
Qualifying exam committee member (2008; 2013; 2015)

Service – The Holden Arboretum

Appointed Research Chair, responsible for administration and oversight of research department activities (April 2012-present)
Conserving native forests committee lead staff member (2014-present)
Research advisory committee lead staff member (2013-present)
Chair of Kent-Holden affiliation steering committee (2013-present)
Search committee chair, plant biologist search (2015)

Search committee chair, plant biologist search (2012)

Natural areas research and management plan committee staff member (2009-2012)

Editorial board for “Leaves”, the quarterly publication of the Holden Arboretum (2008-present)

Strategic direction planning, regional and conserving forests committee (2009-present)

Served on search committees for Holden postdoctoral fellows (2007, 2008)

Website review committee (2008)

Other Service

Organized SEARCH symposium for undergraduate students conducting summer research in northeast Ohio 2016.

Organizer, Holden Scientist Lecture Series 2012-2016.

Co-organizer, Holden Scientist Lecture Series 2011-2012.

Judge for student presentations, ecological section, Botany 2013.

Founding member of the Ohio soil ecology co-laboratory (OSEC) (2006)

Co-organizer, Soil ecology forum, Holden Arboretum (2006)

Participant rhizosphere/mycorrhizal discussion group Boyce Thompson Institute, Cornell University and SUNY-ESF (2002-2004)

Biological Sciences Colloquium organizer, Rutgers University (1999)

Outreach - K-12 Teachers

I offered instruction in soil ecology to high school science teachers through Holden’s Mastin Summer Science Institute, a continuing education program.

1. Instructed teachers in soil ecology lessons for the Scholars Institute continuing education program through the education department. Instructed middle and high school teachers on soil ecology lessons they can use in their classrooms (2012).
2. Taught section on soil seed banks and methods of plant reproduction, and use of seed banks to demonstrate plant diversity and succession (2011).
3. Taught afternoon sessions in soil ecology for “Soil: Inside and out”, a week long course in soil ecology. Participating teachers from grades 5-12. (2009)
4. Prepared lesson plan on mycorrhizal fungi and instructed teachers on mycorrhizal ecology and how mycorrhizas can be examined in the classroom (2007)

Outreach - K-12 Students

I have conducted workshops in soil ecology at Holden for middle and high school biology classes (2008-2017).

1. Led 7th grade students from the Painesville school system through exercises on soil ecology (2011-2017). Expanded to include Chardon and Mentor school system in 2016-17.

2. Led field exercises examining fungal diversity for middle school students at Hershey-Montessori Farm School (2010-2015).
3. 9th grade biology class from Hershey-Montessori Farm School. Students learned about soil fungi, DNA extraction and fingerprinting techniques (2010-2016).
4. Participated in Kent State's upward bound program that provides educational experiences for inner city high school students from Canton. 35 students visited Holden and took part in exercises about plant and forest ecology with the research department. I led the exercise on mycorrhizal fungi (2013).
5. Advanced placement biology class from West Geauga High School. Mushroom survey, morphotyping and DNA extraction demonstration (2008, 2012).
6. Science mentor for Beaumont School, Cleveland Heights (2009).

Outreach - General Public

Garden Clubs

I have given public talks to diverse audiences outside of the Holden Arboretum (2008-2016). Examples are listed below.

Spoke to Cuyahoga County Master Gardeners about healthy soil and food webs (2016).

Presented talk for the 3rd Annual Green Conference organized by The Association of Professional Landscape Designers Ohio Chapter and The Holden Arboretum. Talk was entitled "Healthy Soil – Healthy Food Webs: Going beyond composting to understand the life beneath our feet (2016).

Presented public talk for "Suds and Science" program at the Chardon Brew Works. Talk was entitled "Mushroom, trees and microbes: How do our forests respond to decades of acid rain? (2012).

Spoke to Shaker Lakes Garden Club about mycorrhizas and hardwood forests (2010).

Spoke to Cuyahoga County Master Gardeners about mycorrhizal fungi and garden plants (2008).

Fridays in the Garden

A regular series sponsored by the Holden Arboretum for visitors, members and the public focusing on cultivated and native plants. I have given talks on invasive plant species, rhizosphere biology research at Holden, and acid deposition and hardwood forests.

Leaves

The quarterly publication of the Holden Arboretum reaches over 8000 members. I have written several articles on ecology for *Leaves* over the last few years. Articles covered topics such as mycorrhizal fungi, plants and climate change, mycorrhizal diversity at Holden, vernal pool ecology, winter ecology, and a matching activity piece on fungal diversity for children. I have also organized the research profile section of *Leaves* each month for the last 4 years, including news and highlights sections.
