

Winter Birding

The forests and gardens transition into a pristine, white canvas in winter- an ideal backdrop for spotting many types of birds that spend the winter season on the property.

Use this worksheet to record some birds you see as you walk around the Holden Arboretum or Cleveland Botanical Garden.

Draw a picture of the bird you spotted!

NAME: _____

COLOR: _____

SIZE: _____

LOCATION: _____

ACTIVITY: (What was this bird doing? Was it eating berries, or resting on a tree branch?)

Draw a picture of the bird you spotted!
